## 1. Larry Aceves- Candidate for State Superintendent of Public Instruction

We had the pleasure of visiting with Mr. Aceves and learning more about his position on public education. You can ask any of our office staff about their impressions based on Mr. Aceves and his core beliefs about students and teachers. Larry is a retired superintendent and knows the challenges many of us deal with on a daily basis. I found him to be knowledgeable and sincere. We spoke to him about a number of issues, like teacher merit pay, No Child Left Behind, and standardized testing.

After our initial roundtable, we invited Mr. Aceves to tour the middle school, where he visited classrooms and our new gymnasium. To learn more about Larry and his campaign, you can visit:
